

Proprietary Rights and Software License Notice

Software Product: Clonverse OS and Associated Educational Modules

Lead Developer and Architect: Shree

Effective Date: 2026

1. Statement of Intellectual Property and Copyright
2. This document serves as formal notification that the software known as Clonverse OS, including all of its constituent parts, is the exclusive intellectual property of the developer. This protected property includes, but is not limited to, the core system bootloader, the intent-based artificial intelligence routing logic, the user interface architecture, the terminal environment, the proprietary telemetry integrations, and the comprehensive library of over 211 localized educational modules. All rights, title, and interest in this source code and its visual execution remain strictly with the original developer.
3. Permitted Evaluation and Academic Use
4. Access to this software is currently provided under a strictly limited, non-transferable, and non-exclusive scope. Individuals, such as hackathon judges, technical evaluators, and independent learners, are granted permission to download, install, and execute the software solely for the purposes of personal review, technical evaluation, and local academic use. This limited permission does not constitute a transfer of ownership, nor does it place the software into the public domain.
5. Strict Prohibition on Unauthorized Reproduction and Distribution
6. Any unauthorized use of this software beyond the permitted evaluation scope is strictly prohibited. You are explicitly forbidden from engaging in the following activities:
 - Copying, cloning, mirroring, or reproducing the source code or visual assets on any public or private repository.
 - Modifying, adapting, translating, or creating derivative works based on the Clonverse OS architecture or its included modules.
 - Reverse-engineering, decompiling, or attempting to extract the underlying proprietary logic of the system.
 - Distributing, sharing, or hosting the executable files, module packages, or raw code to third parties without prior written consent.
4. Commercial Use and Licensing Requirements
5. This software is provided for personal and evaluation purposes only. The reproduction, redistribution, integration, or reuse of this software, its codebase, or its underlying architecture for any commercial purpose is strictly forbidden without express written authorization. Commercial use includes, but is not limited to, integrating the code into paid enterprise products, utilizing the architecture for commercial decentralized physical infrastructure networks, or deploying the software in a monetization strategy.

If you wish to license this software, integrate it into a commercial or institutional product, or discuss professional deployment, you must obtain official permission directly from the developer.

For all licensing inquiries, commercial permissions, and professional correspondence, please submit a formal request via email to: nikitakale1974@gmail.com

5. Enforcement and Legal Remedies
6. The developer actively monitors and reserves all rights to protect this intellectual property to the fullest extent of the law. Unauthorized commercial use, plagiarism, unauthorized hosting, or illicit distribution of this code will result in immediate legal action. This includes the issuance of formal takedown notices across all hosting platforms, domain registrars, and version control services. The developer pursues all available legal remedies under applicable international copyright laws to address infringement and recover potential damages.
7. Disclaimer of Warranty
8. The software is provided "as is", without warranty of any kind, express or implied. In no event shall the developer be held liable for any claim, damages, or other liability arising from, out of, or in connection with the software or the use or other dealings in the software.
